

Sikkens Colorbuild Plus

Setting the new standard in undercoats

Sikkens **Colorbuild Plus** offers key benefits over a conventional primer.

Huge time savings: can applied directly on OEM electro coated panels, metals and plastics (non sanding only).

Maximum flexibility: grey shades and colors make any kind of repair possible. Sanding or non sanding.

Easy mixing, spraying and sanding.

Features	Benefits
<ul style="list-style-type: none"> • Direct-to-Metal & Direct-to-Plastic (non sanding only) properties 	<ul style="list-style-type: none"> • Reduced labor costs • Reduced paint costs
<ul style="list-style-type: none"> • 6 colored primers 	<ul style="list-style-type: none"> • Reduced topcoat consumption
<ul style="list-style-type: none"> • Sanding and non Sanding version 	<ul style="list-style-type: none"> • 1 product only
